

PATH TO COLLEGE
FELLOWSHIP

MEET A STUDENT

CLUNE HILL

CLASS OF 2026 | UNIVERSITY OF FLORIDA

Until now, no one in Clune's family has ever gone to college, and they had firm reservations about her going. Like many first-generation college goers and their families, fear of the unknown can be stifling. Their fears caused her to doubt her ability.

But, Clune studied for the SATs with our expert tutors, kept her grades up, volunteered in the community alongside her mentor, and took every opportunity to network. Clune is an enthusiastic advocate for our fellowship; many students join because of her! She carries within her a fire and a dream. You helped ignite the spark!

"Path to College has helped me achieve goals I never knew were possible. I got into a top university because they pushed me to test the limits set before me!"

Today, Clune attends the University of Florida with a full scholarship through the Machen Florida Opportunities Scholars Program. Thanks to your ongoing support for education equity, we are successful in our mission to expand minds and ignite the potential of many more students.
