
MEET A STUDENT

Rose Jacques UF 2024

Born in Haiti in 2001. Rose Jacques came to the U.S. at seven years old. As a freshman, Rose's father died, and Rose started working to help her mother cover rent and food costs. In 2017, Rose was accepted into our fellowship with a 3.74 GPA, and a PSAT of 940.

Rose continued receiving one-on-one mentoring, career and leadership development workshops, and SAT prep in Path to College. Overtime, Rose was able to increase her SAT score to 1210, achieved the 75% Bright Future Merit Scholarship and was accepted to UF, FSU, USF, UNF, and FAU.

Rose says, "In this program, I have had so many wonderful opportunities to discover what I am good at and what else needed improvement. Path to College is committed to each and every member allowing them to find themselves and to enrich others."

Rose is now studying International Relations at the University of Florida. She has a 3.83 GPA and will graduate debt-free.

Path to College is committed to helping so many more hard working students like Rose with extraordinary challenges solidify their chance at a selective university acceptance and scholarship offer.

With your continued support, we will do just that!
